

- ▶ RoomPro Global provides all the benefits of remote AV control, monitoring and management without the added time and expense of network cabling.

Network-Level Control – Without Network Cabling!

With RoomPro Global, you get all the benefits of network-level control monitoring and management without all the additional costs of installation, cables or hardware. Simply use the existing VGA connection to communicate between the networked classroom computer and the RoomPro Wall Control Panel.

RoomPro Global enables you to quickly access usage, system status, lamp hour statistics and more from district to classroom level with its convenient, easy-to-read dashboard. Remotely monitor and control classroom systems from asset tracking and maintenance by serial number to turning projectors on and off.

All-In-One Classroom AV Solutions

Features & Benefits

Complete remote control capability.

Remotely monitor and control classroom systems from asset tracking and maintenance by serial number to turning projectors on and off.

Easy dashboard information access.

Quickly access usage, system status, lamp hour statistics and more from district to classroom level with RoomPro Global's convenient, easy-to-read dashboard.

School-to-school comparisons.

Use RoomPro Global's dynamic reporting function to conduct school-to-school comparisons to guide current and future technology distribution decisions and provide cost justification analysis.

Convenient features.

Easily create "alert" triggers such as low lamp hours remaining, schedule "events" like auto power on/off, and establish user roles and access levels district-wide.

Instant classroom access.

Built on a cloud-computing platform with enhanced browser security through SSL, RoomPro Global gives you instant classroom access and control from any web-enabled computer.

Flexible, virtual teacher control.

Give your teacher full control of the classroom with RoomPro Global's easy-to-use Virtual Control Client.

Help desk support.

Seamlessly integrate RoomPro Global's robust support ticket management system with your existing help desk software, facilitating easy ticket generation from teachers' desktops and real-time tracking and escalation – even directly to RoomPro Technologies Support.

Easy downloading and updating.

Automatically download and install firmware updates through RoomPro Global's Auto-Update feature.

District-Wide Integration.

RoomPro Global provides remote AV control, monitoring and management for all RoomPro Products – ONE, ONE ST and Mobile.
